PROJECT-SETUP

- **Step 1:** Unzip the file contents.
- **Step 2:** Download [XAMPP](#).
- **Step 3:** Open the drive where XAMPP folder is installed
- **Step 4:** Open the XAMMP folder and open htdocs folder

- **Step 5:** Create folder 'lifestyle-store'.
- **Step 6:** copy all the contents of the unzipped file to the 'lifestyle-store' folder
- **Step 7:** Now Open XAMPP control panel.
- **Step 8:** Start Apache server and Mysql from the XAMPP control panel.

- **Step 9:** Open browser and enter "<http://localhost/phpmyadmin/>" and press enter.
- **Step 10:** Click on new to create new data-base, create data-base with name "test".

- **Step 11:** After creating database click on import to import the database.

- **Step 12:** Select 'test.sql' from the 'lifestyle-store/DB' provided in the zipped file and press go.

Importing into the current server

File to import:

File may be compressed (gzip, bzip2, zip) or uncompressed.
A compressed file's name must end in `.[format].[compression]`. Example: `.sql.zip`

Browse your computer: test.sql (Max: 40MiB)

You may also drag and drop a file on any page.

Character set of the file:

After importing the SQL file your are free to run the project.

- On the browser enter "<https://localhost/lifestyle-store>";
- To login as a Admin enter "<https://localhost/lifestyle-store/admin>".
- Login credentials for Admin are- email: abcd@gmail.com', password:AAgg#1234
